

ANNECTO™

Drift Control, Water Conditioning & Foliar Retention Agent

ANNECTO™ is the latest, most advanced plant-based drift reduction agent and water conditioning premix product in the market today. Annecto is an easy to handle, low use rate formulation that is a great fit in the self-applied market where convenience is highly valued.

IMPROVED COVERAGE

Roundup PowerMAX® / XtendiMAX® / SelectMAX® / HSOC tank mix at field use rates
Applied at 50 psi

WHAT MAKES ANNECTO BETTER:

- ✓ A complete premix designed for use with dicamba-based herbicides
- ✓ Conditions hard water with unique non-AMS based technology
- ✓ Won't impact dicamba volatility
- ✓ CPDA approved for quality assurance
- ✓ Advanced, plant-based droplet management technology enhances large droplet retention and coverage for better herbicide uptake
- ✓ Proven performance for managing drift control

Drift Control, Water Conditioning & Foliar Retention Agent

PRINCIPAL FUNCTIONING AGENTS

Proprietary formulation of plant derived drift reduction polymers and water conditioning

Salts	59.8%
Constituents Ineffective as Spray Adjuvants	40.2%
Total	100.0%

All ingredients are approved for use under 40 CFR 180

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

Causes skin and eye irritation. If medical advice is needed, have product container or label at hand. Read label before use.

Wash protective equipment and work clothes thoroughly after handling. Wear protective clothing. Specific treatment is given in the First Aid section on this label or on the SDS.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators or other handlers of this product should wear: protective eyewear, chemically impervious gloves, long-sleeved shirt, pants, socks and shoes. Consult the SDS for further information.

FIRST AID

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

If In Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.

If On Skin: Wash affected area with plenty of soap and water. Cold water may be used. If skin irritation occurs: Get medical advice or attention. Treat symptomatically. Take off contaminated clothing and wash it before reuse.

If Inhaled: Move person to fresh air and keep comfortable for breathing. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.

GENERAL INFORMATION

ANNECTO is a low-use rate premix of plant based drift reduction and water conditioning technologies that minimizes off-target movement while maximizing spray droplet retention. ANNECTO protects the performance potential of glyphosate and dicamba based herbicides either alone or in mixture, particularly in hard water conditions.

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND AND RIGHTS-OF-WAY. NOT FOR AQUATIC USE.

DIRECTIONS FOR USE

The addition of adjuvants to some pesticides and/or fertilizers and their tank mixes may cause phytotoxicity to the foliage and/or fruit of desirable crops. Before using ANNECTO, the applicator or crops advisor must have experience with the pesticide combination, including ANNECTO, or must have conducted a phytotoxicity test.

USE RATES

Ground: 0.5% v/v (2 quarts) of Annecto per 100 gallons of spray solution or 9.6 fl oz/A acre at 15 GPA with Engenia® or Tavium®.

0.75% v/v (3 quarts) of Annecto per 100 gallons of spray solution or 14.4 fl oz/A acre at 15 GPA with XtendiMax®.

Aerial: Same as ground rates.
(no dicamba applications)

MIXING

In the absence of specific mixing instructions found on the pesticide label, fill the spray tank with at least 50% of the desired finished carrier volume. When premixing in a mixing vessel or inductor, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:

1. Compatibility agent and/or antifoam, if needed
2. AMS, dry formulations (WP, DF, WDG, SP), and dry drift retardants
3. Dry soluble and suspension fertilizers / micronutrients
4. Liquid drift retardants and flowable formulations (F & FL)
5. Liquid concentrates, suspension concentrates, microencapsulated and capsule suspension (LC, SC, ME, CS)
6. Emulsifiable concentrates (E, EL or EC)
7. Solutions and soluble liquids (S or SL)
8. Liquid micronutrients and fertilizers
9. Water conditioners and other adjuvants (COC, HSOC, MSO, NIS)
10. Finish filling to desired spray volume level and continue agitation

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

STORAGE AND DISPOSAL

This product does not require heated storage. Keep containers sealed when not in use. Store in original container only. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

PACKAGING:

- 2 x 2.5 gallons per case
- 275 gallon minibulk
