

GRANUM™

Drift Reduction & Water Conditioning Aid, Nonionic Surfactant, Humectant

GRANUM™ is a premix specifically developed for use with Enlist™-based protects to provide both drift reduction and water conditioning in one easy-to-use formulation.

COVERAGE WITH GRANUM

COVERAGE WITHOUT DRIFT & DEPOSITION AID

WHAT MAKES GRANUM BETTER:

- ✓ Modifies droplet size to improve drift control and retention
- ✓ Compatible with specified nozzles for glyphosate and Enlist™-based herbicides
- ✓ CPDA certified ensuring high quality and reliability
- ✓ Unique non-AMS, water conditioning technology blocks antagonistic hard water ions from reducing herbicide performance
- ✓ Low use rate for easy storage and handling

OBTAIN TWICE AS MUCH COVERAGE WITH GRANUM COMPARED TO HERBICIDE TANK MIX ALONE*

*Granum with Enlist One® + Select Max® + Exchange™ compared to herbicide and adjuvant tank mix alone using an AI XR nozzle at 15 GPA

Drift Reduction & Water Conditioning Aid, Nonionic Surfactant, Humectant

PRINCIPAL FUNCTIONING AGENTS

Proprietary blend of water conditioning agent, drift reduction agent, humectant and nonionic surfactant.....33.9%
Constituents Ineffective As Spray Adjuvants 66.1%
Total.....100%
Surfactant content is 7.5%

All ingredients are approved for use under 40 CFR 180

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

Causes skin irritation. If medical advice is needed, have product container or label at hand. Read label before use. Wash protective equipment and work clothes thoroughly after handling. Wear protective clothing. Specific treatment is given in the First Aid section on this label or on the SDS.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators or other handlers of this product should wear protective eyewear, chemically impervious gloves, long-sleeved shirt, pants, socks and shoes. Consult the SDS for further information.

FIRST AID

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

If In Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.

If On Skin: Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention. Treat symptomatically. Take off contaminated clothing and wash it before reuse.

If Inhaled: Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.

GENERAL INFORMATION

GRANUM is a premix of drift reduction, surfactant and water conditioning technology for use with 2,4-D premixes or tank mixes. GRANUM conditions hard water while also reducing drift risk.

For use with Enlist One and Enlist Duo®: Enlist One and Enlist Duo may only be tank-mixed with products that have been tested and found not to adversely affect the spray drift properties of Enlist One and Enlist Duo. A list of those products may be found at Enlist-Tankmix.com.

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND AND RIGHTS-OF-WAY. NOT FOR AQUATIC USE.

DIRECTIONS FOR USE

The addition of adjuvants to some pesticides and/or fertilizers and their tank mixes may cause phytotoxicity to the foliage and/or fruit of desirable crops. Before using GRANUM, the applicator or crops advisor must have experience with the pesticide combination, including GRANUM, or must have conducted a phytotoxicity test.

USE RATES

Ground: 0.25–0.5% v/v (1–2 quarts) of GRANUM per 100 gallons of spray solution or 5 – 10 fl oz/A at 15 GPA.

Aerial: Same as ground rates
(no dicamba applications)

MIXING

In the absence of specific mixing instructions found on the pesticide label, fill the spray tank with at least 50% of the desired finished carrier volume. When premixing in a mixing vessel or inductor, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:

1. Compatibility agent and/or antifoam, if needed
2. AMS, dry formulations (WP, DF, WDG, SP), and dry drift retardants
3. Dry soluble and suspension fertilizers / micronutrients
4. Liquid drift retardants and flowable formulations (F & FL)
5. Liquid concentrates, suspension concentrates, microencapsulated and capsule suspension (LC, SC, ME, CS)
6. Emulsifiable concentrates (E, EL or EC)
7. Solutions and soluble liquids (S or SL)
8. Liquid micronutrients and fertilizers
9. Water conditioners and other adjuvants (COC, HSOC, MSO, NIS)
10. Finish filling to desired spray volume level and continue agitation

STORAGE AND DISPOSAL

This product must be stored above 32°F (0°C). Failure to do so may cause damage. Keep containers sealed when not in use. Store in original container only. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

PACKAGING:

- 2 x 2.5 gallons per case
- 275 gallon minibulk
